Respected Sir

Sub: Request for providing industrial Training Facility for our graduating B.Pharmacy students-Reg

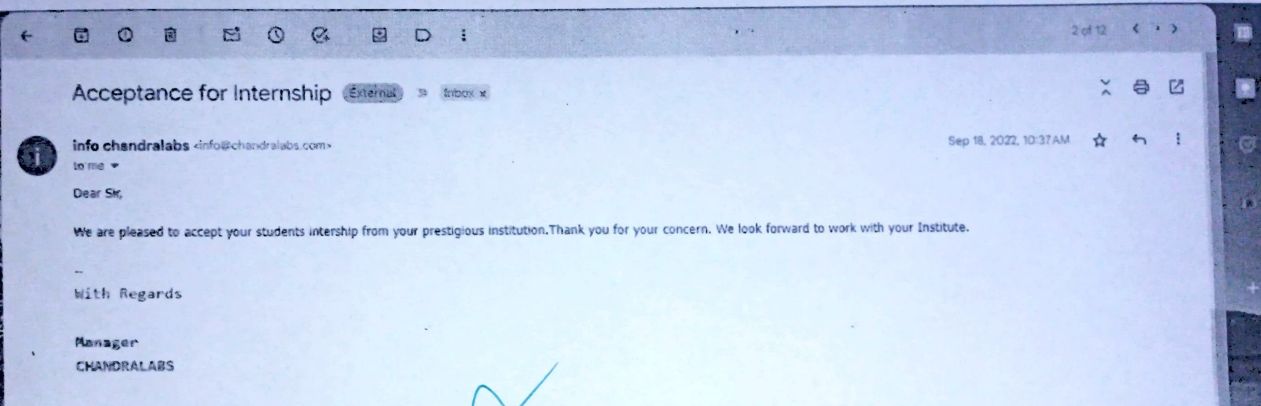

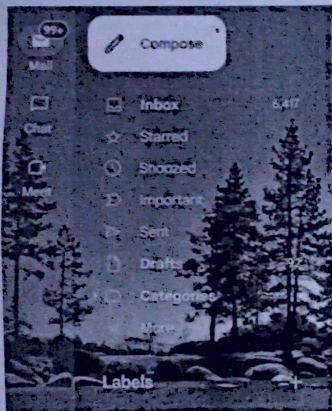

As per the regulations of PCI and INTUK for the B. Pharm course, the final year B.Pharm students have to undergo practical training in a pharmaceutical industry. In this connection our final year B.Pharm students will be completing their IV B. Pharm examinations. We will be highly grateful to you if you can provide opportunity for the following students to undergo training in various manufacturing aspects in your factory.

INDUSTRIAL VISIT REPORT

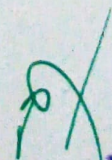

Activity Report: Industrial Visit to **Green Park Biosciences Pvt. Ltd.**,

Date: 02 May 2023

Participants: B.Pharm. students

On 02/05/2023, the B.Pharm students visited **Green Park Biosciences Pvt. Ltd** in Yanam for an industrial visit. They were warmly welcomed by the company representatives, who provided an introduction to the company's background and its contributions to the biotechnology sector. The students were given a comprehensive tour of the facility, where they observed various departments and laboratories involved in research, development, and manufacturing. They also had the opportunity to witness live demonstrations of laboratory techniques and engage in interactive sessions with scientists and experts from different departments. Discussions on regulatory compliance and future career prospects in biotechnology were conducted. Overall, the visit provided the students with practical insights into biotechnological operations and enhanced their understanding of the industry's potential.

INDUSTRIAL VISIT REPORT

Activity Report: Industrial Visit to Seldom Pharma Pvt. Ltd.,

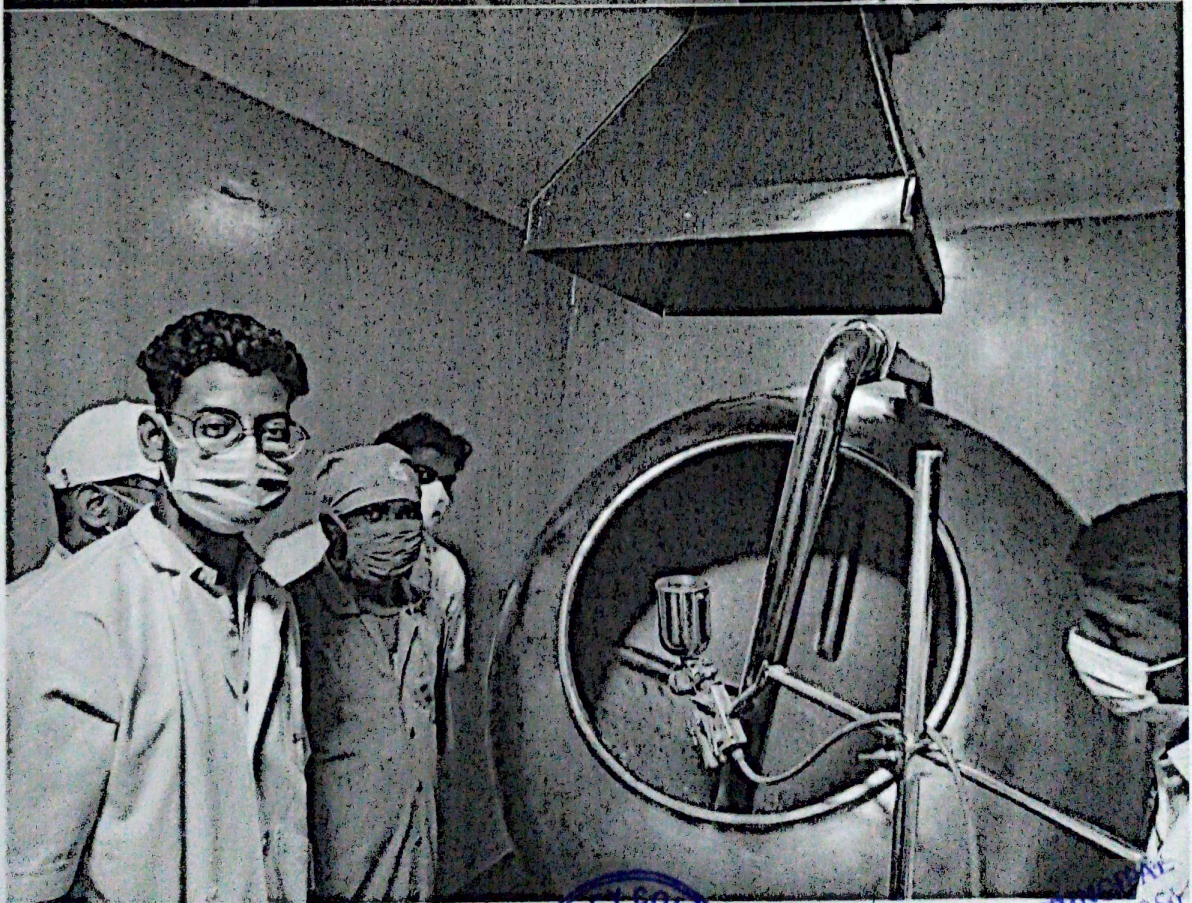

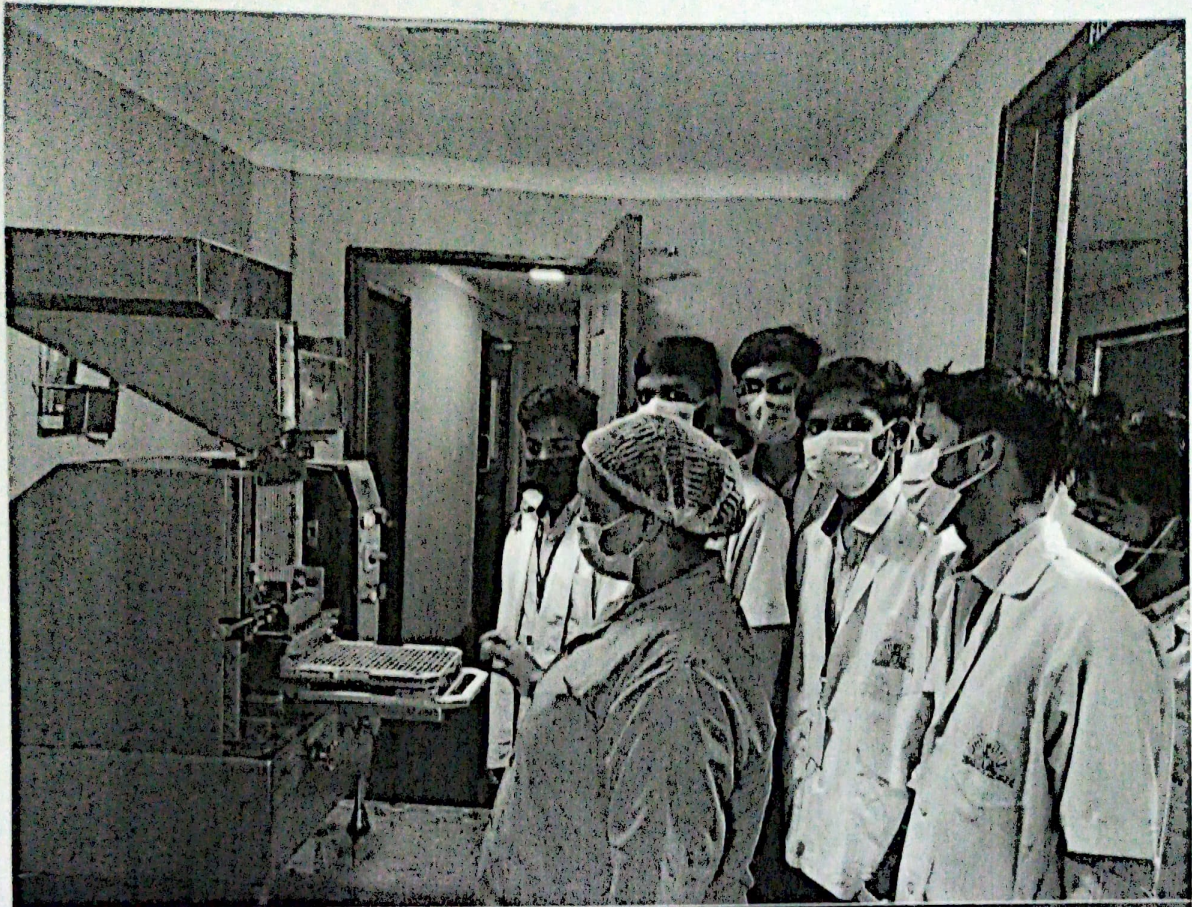

Date: 16 March 2023

Participants: B.Pharm. students

On 16 March 2023, the students of the 3rd B.Pharm class participated in an industrial visit to Seldom Pharma Pvt. Ltd. in Yanam. The visit aimed to provide practical exposure to the pharmaceutical manufacturing processes and operations. The students were then divided into groups and taken on a guided tour of the manufacturing facility. They had the opportunity to witness various stages of pharmaceutical production, including raw material handling, formulation, quality control, packaging, and labeling. The company's staff explained the processes and equipment used at each stage, offering valuable insights into practical pharmaceutical manufacturing. Additionally, the students engaged in meaningful interactions with experienced professionals from different departments of the company, such as production, quality assurance, and research and development. This allowed them to clarify doubts and gain a deeper understanding of the industry. They also visited the quality control laboratory, where they observed the testing and analysis of raw materials and finished products, emphasizing the importance of quality control in ensuring the safety and efficacy of pharmaceuticals.
