✓ A FACULTY DEVELOPMENT PROGRAMME (FDP) ON

CHROMATOGRAPHY ADVANCEMENTS IN INSTRUMENTATION AND APPLICATION

Objective:

- ✓ To educate faculties about the importance of chromatography in characterization of drug molecules
- ✓ To gain knowledge on advanced chromatography
- ✓ To educate the faculties about the novel chromatography methodologies applied in drug characterization.

Time : 10:30 a.m. to 4:15 p.m.

A Faculty Development Programme (FDP) on chromatography advancements in instrumentation and application ADITYA PHARMACY COLLEGE 13.06.2022 to 20.06.2022

Day-1 The first session has begun by B.Sujiya she gave a lecture on importance of chromatographic methods in drug design.

Day-2 Dr.Dsathis kumar he gave a lecture on chromatographic methods employed to isolation of drug molecule.

Day-3 K.Madhavi latha she gave a lecture on trending chromatographic methods for characterization of drug molecule.

Day-4 the first session has begun by Dr.P.Bhaskar he gave a lecture on importance of importance of chromatography in research.

Day-5 T.Uday kumar he gave a lecture on chromatography applied in molecular analysis.

Day-6 Dr.D.Sathis kumar he gave a lecture on application s of chromatography in research.

Day-7 Dr.P.Bhaskar he gave a lecture on advanced chromatography techniques.

Outcome:

- All the faculties actively participated in all the sessions.
- The FDP provided platform to faculties and participants to gain experience about various updated process and guidelines and to share their views on different issues.
- The programme also resolved the queries raised in the minds of participants and provided an opportunity to interact with various experts.

INTERNAL TRAINING PROGRAM ON PREPARATIONS OF DILUTIONS AND REAGENTS

A Seven day internal training program was conducted for the lab technician's on 11-07-2022 to 15-07-2022 in the campus. Senior faculty from our college has taken lectures and given demo on preparation of dilutions and reagents..

S. No	Date & Day	Resource Person	Topic Name
1	Day 1 11.07.2022	L. Parinayasri, SK. Rafi, S. Sowkya Department of Pharmaceutical Chemistry Aditya Pharmacy College.	Methods involved in Preparation of dilute picric acid solution.
2	Day 2 12.07.2022		Techniques and caution during preparation of dilute per chloric acid solution.
3	Day 3 13.07.2022		Procedures for Preparation of 0.1N NaOH solution
4	Day 4 14.07.2022		Preparation of Fehling's solution A and B
5	Day 5 15.07.2022		Methods involved in Preparation of dilute KMnO ₄ solution.

Targeted Audience: Lab technicians of all departments

The program is conducted 5 days as follows

Day 1 Interaction with lab technicians about Methods involved in Preparation of dilute picric acid solution by L. Parinaya sri.

Day-2 Session has begun by SK.Rafi he gave a lecture on Techniques and caution during preparation of dilute per chloric acid solution.

Day-3 S. Swokya She conducted a practical session on Procedures for Preparation of 0.1N NaOH

Day-4 Preparation of Fehling's solution A and B by SK.Rafi

Day-5 Methods involved in Preparation of dilute KMnO₄ solution.

Outcome:

- All the faculties actively participated in all the sessions.
- The FDP provided platform to faculties and participants to gain experience about various updated process and guidelines and to share their views on different issues.
- The program also resolved the queries rise in the minds of participants and provided an opportunity to interact with various experts.

A FACULTY DEVELOPMENT PROGRAMME (FDP) ON

TARGETED DRUG DELIVERY OF GREEN SYNTHESIZED NANO MATERIALS AND THEIR IMPORTANCE

Objective:

- ✓ To educate faculties about the importance of Nanomaterial in targeted drug delivery
- ✓ To gain knowledge on new Trends in nanomaterial's
- ✓ To educate the faculties about the methodologies used in preparation of green synthesized nanomaterial.

Time : 10:30 a.m. to 4:15 p.m.

A Faculty Development program (FDP) on Targeted drug delivery of green synthesized Nano materials and their importance by **ADITYA PHARMACY COLLEGE** from 02.08.2022 to 06.08.2022

Day-1 The first session has begun by Dr. CH.S Phanikumar he gave a lecture on methods employed in the synthesis of nanoparticles.

Day-2 T.UDAY KUMAR he gave a lecture on formulation of nanoparticles.

Day-3 D.NAGASEN gave lecture on green synthesis of nanoparticles.

Day-4 B.SUJIYA she gave a lecture on targeting methods of nanoparticles.

Outcome:

- All the faculties actively participated in all the sessions.
- The FDP provided platform to faculties and participants to gain experience about various updated process and guidelines and to share their views on different issues.
- The program also resolved the queries rise in the minds of participants and provided an opportunity to interact with various experts.

A five day internal training program was conducted for the lab technician's on 19-09-2022 to 24-09-2022 in the campus. Senior faculty from our college has taken lectures and given demo on pharmaceutical chemistry lab instrument handling.

S. No	Date & Day	Resource Person	Topic Name
1	Day 1 19.09.2022	L. Parinayasri, SK. Rafi, S. Sowkya, G. Durga rao Department of Pharmaceutical Chemistry Aditya Pharmacy College.	Methods and Precautions taken during handling of Ph. Meter
2	Day 2 20.09.2022		Techniques and caution during handling of vacuum filtration
3	Day 3 21.09.2022		Procedures for Performing melting point apparatus.
4	Day 4 22.09.2022		Handling and maintenance of vacuum filtration.
5	Day 5 24.09.2022		Handling and maintenance of micro oven

Targeted Audience: Lab technicians of all departments

The program is conducted 5 days as follows

Day: 1 Interaction with lab technicians about Methods and Precautions taken during handling of Ph. Meter by L. Parinaya sri

Day-2 Session has begun by Sk. Rafi he gave a lecture on Techniques and caution during handling of vacuum filtration.

Day-3 S. Swokya She conducted a practical session on Procedures for performing melting point apparatus.

Day-4 Handling and maintenance of vacuum filtration By G. Durgarao

Day-5 Handling and maintenance of micro oven by G. Durgarao

Outcome:

- All the faculties actively participated in all the sessions.
- The FDP provided platform to faculties and participants to gain experience about various updated process and guidelines and to share their views on different issues.
- The programs also resolved the queries raised in the minds of participants and provide an opportunity to interact with various experts.

A FACULTY DEVELOPMENT PROGRAMME (FDP) ON HOW TO START PUBLISHING A JOURNAL

Objective:

- ✓ To educate faculties about the importance of publish a journal.
- ✓ To gain knowledge on journal searching and writing procedures
- ✓ To educate faculties about role of research publications in their future growth in academics and research

Time : 10:30 a.m. to 4:15 p.m.

A Faculty Development Program (FDP) on **how to start publish a journal** ADITYA PHARMACY COLLEGE 17.10.2022 to 21.10.2022

Day-1 The first session has begun by Dr. D. Sathis kumar he gave a lecture on importance of journal publication.

Day-2 Dr.D.Sathis kumar he gave a lecture on how to select a topic.

Day-3 Dr.CH. S. Phanikumar a lecture on how to collect information.

Day-4 The session has begun by Dr.CH. S. Phanikumar he gave a lecture on website source for searching journals.

Day-5 Dr.P.Saikiran he gave a lecture on biblio metric analysis.

Day-6 Dr.P.Saikiran a lecture on how to initiate a collaborative work place.

Day-7 Dr.P.Saikiran a lecture on how to publish a review article.

Outcome:

- All the faculties actively participated in all the sessions.
- The FDP provide platform to faculties and participants to gain experience and to share their views on different issues.
- The programme also resolved the queries raised in the minds of participants and provided an opportunity to interact with various experts.

A FACULTY DEVELOPMENT PROGRAMME (FDP) ON

COMPUTATIONAL APPROACHES APPLIED TO DRUG DISCOVERY AND DOSAGE FORM DESIGN

Objective:

- ✓ To educate faculties about the importance of computational drug discovery in dosage form design.
- ✓ To gain knowledge on computational drug discovery
- ✓ To educate the faculties about the novel computer based methodologies applied in drug and dosage form design.

Time : 10:30 a.m. to 4:15 p.m.

A Faculty Development program (FDP) on applications of computational chemistry in drug discovery ADITYA PHARMACY COLLEGE 21.11.2022 to 24.11.2022

Day-1 The first session has begun by G.RAMAKRISHNA he gave a lecture on importance of computational methods in dosage form design.

Day-2 G.SRIDEVI she gave a lecture on applications of computational chemistry in dosage form design.

Day-3 G.NAGASEN a lecture on computerized software's for drug characterization and dosage form design

Day-4 G.RAMAKRISHNA gave a lecture on computational approaches applied to medicament formulation

Outcome:

- All the faculties actively participated in all the sessions.
- The FDP provided platform to faculties and participants to gain experience about various updated process and guidelines and to share their views on different issues.
- The program also resolved the queries raises in the minds of participants and provided an opportunity to interact with various experts.

A FACULTY DEVELOPMENT PROGRAMME (FDP) ON APPLICATIONS OF COMPUTATIONAL CHEMISTRY IN DRUG DISCOVERY

Objective:

- ✓ To educate faculties about the importance of computational chemistry in new drug development
- ✓ To gain knowledge on 3-D and Swiss docking
- ✓ To educate the faculties about how docking studies help in analyzing the molecule

A Faculty Development program (FDP) on Applications of computational chemistry in drug discovery
ADITYA PHARMACY COLLEGE 20.02.2023 to 24.02.2023

Day-1 The first session has begun by Dr.K.Ramakrishna he gave a lecture on steps involved in drug discovery.

Day-2 A.Gayatri she gave a lecture on strategies involving in drug development.

Day-3 SK.Rafi he gave a lecture on modern software used in drug development.

Day-4 L.Parinaya sri lecture on 3-D Docking and swiss docking.

Outcome:

- All the faculties actively participated in all the sessions.
- The FDP provided platform to faculties and participants to gain experience about various updated process and guidelines and to share their views on different issues.
- The program also resolved the queries raises in the minds of participants and provided an opportunity to interact with various experts.

INTERNAL TRAINING PROGRAM

MANAGEMENT OF LAB STORE

A two day internal training program was conducted for the lab technician's on 11-04-2023 to 12-04-2023 in the campus. Senior faculty from our college has taken lectures and given demo on management and maintenance of lab store.

S. No	Date & Day	Resource Person	Topic Name
1	Day 1 11.04.2023	S.Sowkya, G.Durga rao. Department of Pharmaceutical Chemistry Aditya Pharmacy College.	Methods followed in arrangement of chemicals in racks.
2	Day 2 12.04.2023		How to maintain hazardous and soft chemicals in a laboratory.

Targeted audience: Lab technicians of all departments.

The program is conducted 2 days as follows

Day 1 Interaction with lab technicians about Methods followed during the arrangement of chemicals in racks by S.Sowkya

Day-2 Session has begun by G.Durgarao he gave a lecture on how to maintain hazardous and soft chemicals in a lab store.

Outcome:

- All the lab assistants actively participated in all the sessions.
- The ITP provided platform to lab assistants and participants to gain experience about various updated methods followed to turn off fire in the absence of fire extinguisher.
- The program also resolved the queries raises in the minds of participants and provided an opportunity to interact with various experts.

INTERNAL TRAINING PROGRAM ON

HOW TO PREVENT FIRE HAZARDS IN LABORATORIES

A three day internal training program was conducted for the lab technician's on 17-05-2023 to 19-05-2023 in the campus. Senior faculty from our college has taken lectures and given demo on techniques in handling fire extinguishers.

S.No	Date & Day	Resource Person	Topic Name
1	Day 1 17.05.2023	L. Parinayasri, SK. Rafi, T. Sri Sowkya Department of Pharmaceutical Chemistry Aditya Pharmacy College	Knowledge on various types of fire extinguishers
2	Day 2 18.05.2023		Methods and Precautions taken during handling of fire extinguisher
3	Day 3 19.05.2023		Techniques used to turn off a fire with ought a fire extinguisher.

Targeted audience: Lab technicians of all departments.

The program is conducted 3 days as follows

Day-1: Interaction with lab technicians about various types of fire extinguisher and their applications by L. Parinaya sri.

Day-2: Precautions and techniques followed during handling of fire extinguisher by Sk. Rafi

Day-3: T.Sri Swokya she conducted a practical session on techniques used to turn off a fire with ought a fire extinguisher.

Outcome:

- All the lab assistants actively participated in all the sessions.
- The ITP provided platform to participants to gain experience about various updated methods and guidelines followed during maintenance of lab store.
- The program also resolved the queries raises in the minds of participants and provides an opportunity to interact with various experts.
