

POLICY DOCUMENT

Green campus initiatives

Aditya Pharmacy College committed to create environment consciousness Environment friendly practices are encouraged for sustainable development and the institution set in harmony with nature promotes a stress-free learning environment on the campus. The green practices adopted by the institution are discussed hereunder.

Rain water harvesting to resolve and manage water scarcity problems that may arise in the future. Our maintenance staff regularly inspects tap leakages and attends to repair needs immediately to avoid loss of potable water

Water Resources and Rain Water Harvesting

The college realizes the importance of conservation and the best utilization of water resources. The college maintains and generates water resources. The college has a pond to meet the general needs of the institution.

The water from the roof tops along with the rain water is collected through a well-connected pipe work delivery system. This arrangement is helpful in collecting water, which is then collected into pits, specially constructed for this purpose. The rain water stored in the pits, is used for the maintenance of the green cover on the campus

Energy Consumption

LED bulbs are used in maximum to save energy. Electric and electronic equipment is turned off when not in use.

Bus facility

The college provides bus facility to all its students and staff.

Restricted Entry of Automobiles

No vehicle is allowed into the campus, making the campus pollution free. The vehicles are parked outside the gate of the campus. Students nearby are encouraged to come by bicycles to college.

Use of battery powered vehicles

Institution using battery powered vehicles to reduce the emission of greenhouse gases

Pedestrian pathways

The pathways inside the campus are well maintained and pedestrians can walk safely through the campus as entry of vehicles are restricted. Security Guards at the gate keep a watch on the entry of vehicles and crossing into the campus

Ban on use of Plastic

The campus is plastic free zone, there is a complete restriction on single use plastics on the campus. Special bins are arranged to collect the plastic waste. Hazards of use of plastic are explained to students to create Plastic Free Zone

Land scaping with Trees and Plants:

The number of trees and plants on the campus create an eco-friendly environment and creates a positive impact on the stakeholders, who engage themselves with the institution by participating in several plantation activities. The institute has full time gardener to maintain and monitor the natural plants. Most of the corridors of the college are lined up with plants

Paperless Office

The college uses technology to maintain the campus a paperless one. Most of the official communication like notices for various meetings of staff as well as students, holiday notices. Program communication, greetings on different occasions. etc. is done through the bulk sms facility, emails and other social media.

For the purpose of sending invitations, participation news, views. etc. (for conferences. interviews. campus interviews, seminars, workshops.... etc.) emails, sms and social media are

preferred. Unless required paper, printouts are not preferred and most of the work is done through soft copies on computers.

Waste Management

Separate bins are placed for the collection of waste Fertilizers are not encouraged to maintain the college garden, rather compost of plant waste is used as manure.
