INDUSTRY INSTITUTE COLLABORATION CELL COMMITTEE

STANDARD OPERATING PROCEDURE

The industry institute collaboration cell committee is formed with principal, staff, and industry members as member in committee. The committee plans industry interactions, industrial visits and plan various training programs regarding new technologies as per the requirements of industry. Committee meets every academic year at least two times for planning and to monitor programs.

The Industry institute collaboration cell committee of the college aims the following

- ✓ Industry readiness in students by teaching latest technologies in industry.
- ✓ Industrial visits give the exposure of work culture.
- ✓ To collaborate with industry by making MOU's.
- ✓ IICC paves the path towards internships by consulting industries.
- ✓ Planning workshops for students.
- ✓ Plans faculty development programs for faculty members in emerging technologies.
- ✓ Plans to arrange industry expert talks and workshops.
