7.1.4 [3] CONSTRUCTION OF TANKS AND BUNDS

Water management system is the need of the hour due to severity of water crisis in our society. To meet the excess demand of water in the college, hostels, canteens the water stored in the ground water tank is used for various purposes as washing, cleaning and gardening by pumping it into storage tanks in the campus with the help of well laid pipe network. The water bodies contain water for most part of the year.
