1. Identification Criteria for Slow and Advanced Learners

1.1. Assessment Mechanism for Slow and Advanced Learners

1.2. Action Plan/ Programs for slow and advanced learners:

At Aditya College of Pharmacy, Students performance evaluation policy is in place. The objective of this policy is to devise a structural mechanism to

- Identify Learning Levels of the students
- Implement the action plan for Slow Learners and Advanced Learners with the objective to improve Students' Academic performance
- Monitor and evaluate the effectiveness of the Plan

1.3. Process set for Identification of Slow and Advanced Learners

- During the Teaching & Learning process (in Classroom and Laboratories) and through the student Proctoring process, the faculty classifies students as Slow and Advanced learners.
- The Teacher and the Faculty Procter together analyse the learning abilities of Students based on the indicators such as academic performance and also behavioural, psychological and social aspects. To ensure that identification of the Slow and Advanced Learners is carried out properly, the Proctors also continuously interact with the respective class teacher.

I. Slow Learners are generally characterized as students with superficial learning abilities, poor/ slow grasping power, more absenteeism, sometimes with physical, personal and psychological problems and other developmental issues.

Characteristics of Slow Learners	Action Plan for Improvement
Physical and Psychological problems, visual general coordination, attention deficits, emotional instability, low self-esteem, time and action disorganisation	Thorough counselling and mentoring process
Academic – poor memory, difficulty in comprehension	Repeating the difficult concepts time to time so that it is well understood by the slow learner
Developmental issues – immature language pattern, speech / hearing issues	Conducting target oriented intensive sessions at institute instead of traditional classroom teaching
Poor attendance / Reluctance to learn / diversified interest	Adoption of specific required reading techniques
Weak or ill interest in studies	Remedial problem-solving sessions
Social – poor judgement, immature social behaviour, poor concentration	Providing short and specific direction to students to bring them to level of middle learners
Personal – frustration, aggression, anxiety	Providing extra care during individual based, customized practice session for critical courses

II. Advanced Learners are characterized as students with meaningful and deep investigation-oriented approach and analytical abilities, good comprehension. Such students have a proactive attitude towards gaining knowledge in various fields and facing challenges.

Characteristics of Advanced Learners	Action Plan for Improvement
Very alert and proficient	Continuously inspiring and encouraging
Rapid learning ability and excellent memory	Allowing more choices and offer challenges
Advanced comprehension and abstract ideas	Providing sufficient & extra platform for resources
Enjoy solving problems	Building professional & productive mind-set by giving real life and real time cases and problems
Self-taught reading and writing skills	Motivating so that they develop to think differently and act on unusual problems
Abstract thinking, logical & insightful	Encouraging self-assessments
Longer attention and intense concentration	Thorough counselling and mentoring
Pre-occupied with own thoughts and ideas	Concentrative approach to make them distinguished merit holders in university
High interest in experimentation and doing things differently	Encouraging to participate in co-curricular, extra-curricular and other sport activities
Desire to organize, manage & complete tasks	Encouraging to participate in technical events

1. Identification Criteria for Slow and Advanced Learners

1.1. Assessment Mechanism for Slow and Advanced Learners

1.2. Action Plan/ Programs for slow and advanced learners:

At Aditya College of Pharmacy, Students performance evaluation policy is in place. The objective of this policy is to devise a structural mechanism to

- Identify Learning Levels of the students,,
- Implement the action plan for Slow Learners and Advanced Learners with the objective to improve Students' Academic performance
- Monitor and evaluate the effectiveness of the Plan

1.3. Process set for Identification of Slow and Advanced Learners

- During the Teaching & Learning process (in Classroom and Laboratories) and through the student Proctoring process, the faculty classifies students as Slow and Advanced learners.
- The Teacher and the Faculty Procter together analyse the learning abilities of Students based on the indicators such as academic performance and also behavioural, psychological and social aspects. To ensure that identification of the Slow and Advanced Learners is carried out properly, the Proctors also continuously interact with the respective class teacher.

I. Slow Learners are generally characterized as students' with superficial learning abilities, poor/ slow grasping power, more absenteeism, sometimes with physical, personal and psychological problems and other developmental issues.

Characteristics of Slow Learners	Action Plan for Improvement
Physical and Psychological problems, visual general coordination, attention deficits, emotional instability, low self-esteem, time and action disorganisation	Thorough counselling and mentoring process
Academic – poor memory, difficulty in comprehension	Repeating the difficult concepts time to time so that it is well understood by the slow learner
Developmental issues – immature language pattern, speech / hearing issues	Conducting target oriented intensive sessions at institute instead of traditional classroom teaching
Poor attendance / Reluctance to learn / diversified interest	Adoption of specific required reading techniques
Weak or ill interest in studies	Remedial problem-solving sessions
Social – poor judgement, immature social behaviour, poor concentration	Providing short and specific direction to students to bring them to level of middle learners
Personal – frustration, aggression, anxiety	Providing extra care during individual based, customized practice session for critical courses

II. Advanced Learners are characterized as students with meaningful and deep investigation-oriented approach and analytical abilities, good comprehension. Such students have a proactive attitude towards gaining knowledge in various fields and facing challenges.

Characteristics of Advanced Learners	Action Plan for Improvement
Very alert and proficient	Continuously inspiring and encouraging
Rapid learning ability and excellent memory	Allowing more choices and offer challenges
Advanced comprehension and abstract ideas	Providing sufficient & extra platform for resources
Enjoy solving problems	Building professional & productive mind-set by giving real life and real time cases and problems
Self-taught reading and writing skills	Motivating so that they develop to think differently and act on unusual problems
Abstract thinking, logical & insightful	Encouraging self-assessments
Longer attention and intense concentration	Thorough counselling and mentoring
Pre-occupied with own thoughts and ideas	Concentrative approach to make them distinguished merit holders in university
High interest in experimentation and doing things differently	Encouraging to participate in co-curricular, extra-curricular and other sport activities
Desire to organize, manage & complete tasks	Encouraging to participate in technical events

III BPHARMACY II SEMESTER

GPAT SCHEDULE (A SEC)

S.NO	DATE	SUBJECT	TOPIC
1	31-01-2024	Pharmaceutical technology II	Tablets, capsules and parenterals
2	07-02-2024	Pharmaceutical biotechnology	R DNA technology and enzyme technology
3	14-02-2024	Pharmacology II	Anti virals
4	21-02-2024	Medicinal chemistry	Anti hypertensives, diuretics
5	28-02-2024	Pharmaceutical technology II	Packaging of pharmaceutical products and tablet coating
7	06-03-2024	Forensic pharmacy	Pharmacy act and D and C act
8	13-03-2024	Pharmacognosy	Seed drugs
9	20-03-2024	Pharmaceutical biotechnology	Specific fermentations
10	27-03-2024	Pharmacology II	Aminoglycosides
12	03-04-2024	Industrial pharmacy	IP cosmetics
13	10-04-2024	Pharmaceutical chemistry	Anti convulsants
14	24-04-2024	Pharmacology II	Pencillins
15	01-05-2024	Pharmaceutical technology II	Aerosols, microencapsulation, sustained release dosage form

Circular and Schedule of Advanced Learner classes

Date: 21/10/2023

CIRCULAR

All the faculty of **I M. PHARMACY, PHARMACOLOGY** are required conducting the remedial classes for **Advanced learners** from 21/10/2023. The timetable is attached below.

TIMETABLE FOR ADVANCED LEARNERS 2023-2024

DURATION: 21/10/2023 to 11 /12/2023

Day	Timing	Name of the Subject	Name of the Faculty	Signature of the Faculty
Monday	4.15 PM to 5.00 PM	ADVANCED PHARMACOLOGY -I	DR.K. RAVI SHANKAR	
Tuesday		PHARMACOLOGICAL AND TOXICOLOGICAL SCREENING METHODS -I	V. BHARGAVI	
Wednesday		CELLULAR AND MOLECULAR PHARMACOLOGY	S.AMALA	
Thursday		MODERN PHARMACEUTICAL AND ANALYTICAL TECHNIQUES	N. DIVYA & K. RAMA KRISHNA

2.4 Circular and Schedule for remedial Classes

Date: 21/10/2023

CIRCULAR

All the faculty of I M. Pharmacy , pharmacology are required to conduct the remedial classes for **slow learners** from 21/10/2023

The timetable is attached below.

REMEDIAL CLASS TIMETABLE FOR SLOWER LEARNERS 2023-2024

DURATION: 21/10/2023 to 11 /12/2023

Day	Timing	Name of the Subject	Name of the Faculty	Signature of the Faculty
Monday	4.15 PM to 5.00 PM	ADVANCED PHARMACOLOGY -I	DR.K. RAVI SHANKAR	
Tuesday		PHARMACOLOGICAL AND TOXICOLOGICAL SCREENING METHODS -I	V. BHARGAVI	
Wednesday		CELLULAR AND MOLECULAR PHARMACOLOGY	S.AMALA	
Friday		MODERN PHARMACEUTICAL AND ANALYTICAL TECHNIQUES	N.DIVYA &K. RAMA KRISHNA

RATIONAL DRUG DESIGN:
Drug design is the systematic process of finding new medications based on the knowledge of the biological target.

→ In the most basic sense drug design involves design of small molecules that are complementary in shape and charge to the bio molecular target to which they interact and therefore will bind to it.

Methods:

- Random Screening
- Trial and error Method
- Ethnopharmacology approach
- Stereocopy Method
- Classical pharmacology
- Chemical structure based drug discovery

Types of drug design:

Structure based drug design

→ Ligand based drug design

Drug design

LBDD

SBDD

LBDD

SCREENING METHODS:

High Throughput Screening: This is a series of procedures that involves a large number of samples (usually 1000s) are planned, performed, monitored, analyzed and reported.

Why HTS created: In the early 90s HTS became common in cases of high laboratory practices all over the world.

They discovered a lot of potential activities and a lot of poor lab practices.

Examples of some of these poor lab practices found were:

- Equipment not been calibrated to standard form
- Incomplete/inaccurate accounts of the animal lab study
- Inadequate test systems

PRINCIPLES:

- Test facility Organization and personnel
- Quality assurance programme (QAP)
- Facilities
- Apparatus, Materials, and reagents
- Test systems
- Test and reference substances
- Standard Organization procedures
- Performance of the study
- Reporting of study results
