Presentation of responses through bar graph

Other Suggestions:

1. Faculty must improve their communication skills
2. We want courses like medical coding to get jobs outside

OVERALL CONCLUSIONS THROUGH ANALYSIS OF STUDENTS' FEEDBACK

The feedback form for Students incorporated questions related to teaching learning process in the college. Based on responses, some conclusions were drawn.

- 1) The students seem highly satisfied with the syllabus coverage in their previous academic year/semester.
- 2) They are also satisfied with the illustration of concepts by the faculty, preparation for the classes and information given by the teacher about course and program outcomes.
- 3) They say that teachers are using ICT techniques but not in adequate manner.
- 4) Majority of students answering satisfactory for fair internal evaluation and effective study material
- 5) Majority of students opinioned that the faculty are interactive and mentored properly.
- 6) Here, from the responses of students it can be said that certain students arise a need of improvement in communication skills of their teachers such as vocabulary.
- 7) Students are **not** positive with inputs beyond curriculum.
- 8) They suggest more extra curricular activities and introduction of Pharma job related courses such as medical coding.
