An awareness program was held in the seminar hall of Aditya College of Pharmacy on the 26-11-2022 for III and IV Pharm D students. The speaker started the session by stating girl child education is a pivot for families, communities and societies today. Girls who are able to get educated will be able to join the work force, earn livelihoods, take care of their families and marry at a mature and responsible age. The speaker also stated that educated girl grows up to become educated women who play an important role in the development of the society. She also focussed on the point that certain issues needed to be addressed and resolved in order to ensure 100% literacy to girl child like ensuring safety of girls, access to free education in rural areas, access to free and hygienic sanitation, freedom to study with no burden of household chores etc. The speaker then concluded the session and vote of thanks given by the coordinator.
