Report on

A Career guidance programme on

"Job opportunities in the field of Bridge Design and Analysis"

Name of the Event: Job opportunities in the field of Bridge Design and Analysis

Introduction to Event:

The Department of Civil Engineering at Aditya Engineering College (A), conducted a career-counselling programme to explore employment opportunities and potential growth in various civil engineering fields. This program's goal is to disseminate information about various approaches to expanding core ideas in structural engineering, concrete technology, mechanics of materials, construction management, geological science and engineering, and environmental engineering from the inside out. The session focuses on civil engineers, who have a wide range of career options, including building control surveyor, CAD technician, consulting civil engineer, contracting civil engineer, design engineer, nuclear engineer, site engineer, structural engineer, water engineer, and rural and urban transport engineer.

Event Date: 18-01-2021.

Co-ordinator: Dr S Govindarajan, Professor, Department of CE.

No of Participants: 241

Expert with Designation:

Prof. V. Sivarama Raju, Professor in civil engineering dept., S.R.K.R Engineering College, Bhimavaram.

Experts' Profile:

He completed PhD (Structural Engineering) from GITAM, Vizag. He has vast experience in academic and administrative activities. He also led an exceptional work in consultancy and research in various civil engineering specializations. As a part of professional career, he organised FDPs and Seminars.

Venue: Bill Gates Bhavan Room No.301.

Staffing:

Mr. N. Anil Kumar, Asst Prof, CE Dept.

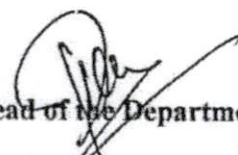

Outcomes:

- Students learned how to be technically sound in the current job market for civil engineering sectors and how to have clarity about their future career as competition rises.
- Through this program, students have learnt the difference between the bridge's superstructure and its substructure, understood the design and analysis modules.

Closing remarks:

Students from this career guidance session had learnt the simulation and modelling beside the design and analysis for various bridges super and sub structures. The expert has shared lot of conceptual designs and simulations with students and made them to understand the various software tools provided in enhancing and manipulations involved in bridge design. Overall the session went with lot of content sharing regarding the design and analysis of structures.

- Students learned how to be technically sound in the current job market for civil engineering sectors and how to have clarity about their future career as competition rises.
- Through this program, students got awareness on OpenRoads designing software.

Closing remarks:

Students interestingly involved in the session and shared the expert views on emerging road expansions and designs of roads through various terrains. The student has made a strong contribution in interacting with expert on various tools in road designing. Overall, the session went with technical clarifications on software design and simulation tools.

A 2-Day Online Guest Talk on "Job opportunities in Electronics and Communication Engineering"

Event Name: Job opportunities in Electronics and Communication Engineering.

Introduction to Event: Guest Talk on "Job opportunities in Electronics and Communication Engineering" was organised on 20-01-2021 and 21-01-2021, at Aditya Engineering College (A) to make the students understand the importance of job opportunities in the field Electronics and Communications Engineering. This increases the scope and job opportunities for the young engineering minds. The objective is to enable the students to enhance their knowledge about awareness on opportunities in VLSI, embedded systems, Telecommunications and networking. Through this programme, students equipped with knowledge on employment opportunities in variety of sectors such as Indian Telephone Industries, Civil Aviation, Development centers in various States, Defense, NPL, A.I.R, Railways, Bharat Electronics Limited, HAL and D.R.D.O.

Event Dates: 20-01-2021 & 21-01-2021.

Co-ordinator: Mr. M. Neeladri, Assoc. Professor, ECE.

Event Flow:

- Awareness on opportunities in Electronics and Communication Engineering
- Plan and Preparation to grab opportunities in Electronics and Communication Engineering

No. of Participants: 523

Name and profile of the Expert with Designation: Mr. K Murali Krishna, JUNIOR Engineer TELECOM BSNL, Rajahmundry. He completed M.E (Electronic Instrumentation) from Andhra University, Vishakhapatnam and U.G from Sri Vasavi engineering college, JNTUH, Hyderabad. His expertise is in the field of communication. He is currently working as Junior Engineer Telecom BSNL, Rajahmundry.

A Report on Online Awareness programme on "Career Opportunities in Petroleum and Allied Industries"

Title: Awareness programme on "Career Opportunities in Petroleum and Allied Industries"

Introduction to Event:

In the Petroleum Sector, Careers for Petroleum Engineering (B.E., or B.Tech.) is among the most popular graduation courses that students take after completing their school. Previously , educational background of Geosciences, Geophysics , Chemical engineers, Civil Engineers are most chosen graduates ,but with the growing challenges and reducing the cost of training companies started looking for the Petroleum engineering graduate to fill the skill gap. Choosing the right career can be confusing for many students. The around there are opportunities in petroleum and is full of opportunities where the students may not be aware of most of them. After completing engineering there are many opportunities such as Upstream and Downstream and Pipeline Engineering area and these are promising areas for employment. A knowledge of Upstream, Downstream, Transportation and Drilling to understand the business of petroleum companies and their role as an engineer such as the company policy, government regulation and the safety requirements is must for Petroleum Engineers irrespective of their working location. There are plenty to start and learn, upstream is the one of area to the start for young petroleum graduates

Resource Person: Surya Prakash, Senior Subsea Integrity, Reliance Industries, Kakinada

Profile of resource person in brief:

He has 13 years of experience in the oil and gas industry. His experience in subsea engineering area and currently working as the Senior Subsea Industry, Reliance Industries, Kakinada. He did bachelors in electronics and communication engineering. His Expertise in the Subsea area.

Staffing:

Mr. Y R C Sai Narayana, Associate Professor, Department of Petroleum Technology

Outcomes:

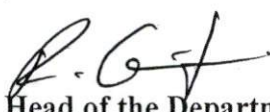

The Students got familiarised about

- How to get work in the subsea and Petroleum
- Skills required for working in subsea and petroleum
- Equipment expertise and relevant training for safety standards
- Joining training programmes

Closing remarks –description:

After attending this awareness programme, students got clarity on the working area and job oriented skills required for the subsea and petroleum engineer role in the current role and responsibilities required to get opportunities.

Report on a seminar on " Essential Communication Skills for Present Managers "

Name of the Event: Essential Communication Skills for Present Managers

Introduction to Event:

A one-day programme was conducted at Aditya Engineering College(A), by the department of Management Studies to impart knowledge on the ability to communicate effectively with superiors, colleagues, and staff is essential, no matter what industry you work in. Workers in the digital age must know how to effectively convey and receive messages in person as well as via phone, email, and social media. Communication skills may not be the instantly arrived skill when one thinks of the top priority skills expected from a new manager. But most of the new managers in the top percentile tend to have mastered this crucial interpersonal skill. How does communication help new managers get an edge? Clear communication skills enable the new managers to probe the right questions, accurate listening ability, manage crucial conversations effectively which lead them to get into the crux. Many of the workplace conflict, misunderstandings or task mishaps could be a result of miscommunication and that could have been handled effectively with stronger communication skill. Moving up the ladder from an individual contributor to managing team requires regular discussion with the team and being up to date with the happenings within the team. Apart from communicating with the team, a new manager needs to represent the team in front of various forums like their managers, other teams.
