Respected sir,

We are from student council of Aditya College of Engineering and technology. We found an issue regarding WiFi connectivity in our campus. The present network speed and bandwidth is not meeting the requirements of the students in our college. The students are unable to perform their activities like project works, R&D while searching the required data online and for CSE students, they are facing difficulties in their daily laboratory activities while using the computers. As a part of student council committee, we request you to solve this problem by taking necessary action to improve the strength of the signal for the benefit of the students in our campus.

Thanking you sir,

Yours sincerely,

ANNUAL REPORT

AY 2020-21

An awareness program was conducted on “Student Council “on 10th March 2021 in seminar hall, Visvesvaraya Bhavan among the committee members and students. The program began with the address by Mr.M.P.Subbaraju student council coordinator, around 24 students attended the meeting.

Our Principal, the Chairman of student council committee Dr.T.K.Ramakrishna Rao emphasized on the colleges strict policy on student welfare in campus with the effort of everyone. The environment should be friendly so that all the category of students can depend and help each other.

The committee coordinators and students found an issue regarding WiFi connectivity in our campus. The present network speed and bandwidth is not meeting the requirements of the students in our college. The students are unable to perform their activities like project works, R&D while searching the required data online and for CSE students, they are facing difficulties in their daily laboratory activities while using the computers. As a part of student council committee, we requested to solve this problem by taking necessary action to improve the strength of the signal for the benefit of the students in our campus. This issue was brought to the Vice Chairman through Principal. Finally, the issue has been resolved by increasing the internet speed and band width which helped a lot for students and staff.

Once again is informed that the Council gives a proxy structure through which students can discuss issues which are helpful for the institute and the students. It is significant that they are offered the chance to communicate their perspectives on various issues in the college and make them to participate in sports, co-curricular and cultural activities. The program concluded with the vote of thanks by Student Council Committee Co-Ordinator Mr.M.Nagaraju.
