

2.Green Cover zone – Sustainable Environment

Aditya college of Engineering and Technology is reputed for its academics and Placements. It is spread in an area of 180 acres of land amidst the Surampalem village of East Godavari dist. One that is enthralling about the institution is its enchanting ambience and beauty that really makes one so immersed in to it. The institution is committed to maintain an Eco friendly environment and zero emissions campus. The energy or the power utilized for various purposes is generated from renewable energy source that is the solar panels fixed on academic buildings which also contribute to saving of non-renewable resources. The canopy of trees, carefully nurtured vegetation and the flora fauna present in the college premises clearly speaks volumes about the sustainable environment. To maintain a sustainable environment waste management is implemented following the norms of the government from the collection to disposal of waste keeping in view of the bounty of soil and the living environment. Understanding the emergency of scarcity of water the institution took a major step in conserving the water utilization. The raw water from RO plants and domestic water that let out in the college is channeled to the gardens and mango groove. The college has a policy of ban on plastic and restriction on entry of automobiles to maintain a clean, green and healthy environment.
