Coding Practice

Ms.J.Divya Lalitha Sri,

Assistant Professor,

Department of C.S.E,

Aditya College of Engineering & Technology,

Surampalem

To improve coding ability, students are asked to make use of web resources to enhance their coding skills. This type of practice helps students in developing more complex coding. Students are advised to calculator program by applying CSS with the help of web resources.

Fig.1. Giving suggestions to coding practice

Fig.2. Clarifying doubts

To do: Develop Calculator program using Java Script.

```
<h1>JavaScript Calculator</h1>
<p class="warning">Don't divide by zero</p>

<div id="calculator" class="calculator">
