Title: Career planning

Date: 19-04-2019

Resource person: Dr .Vijayalakshmi,
Principal,
Pragathi college of education
Peddapuram.

Objective of workshop: The main objective of this Workshop is to guide students ‘a sequence of jobs that constitute what a person does for a living’. Career planning is a process by which one selects career goals and the path to those goals.

Beneficiaries: Faculty and Students

Outcome of the event: Career Planning session involves a clear selection of career goals and career paths. Career planning encourages individuals to explore and gather information, which enables them to synthesize, gain competencies, make decisions, set goals, and take action. It is a crucial phase of human resource development that helps the employees in making the strategy for work-life balance.

The major objectives of career planning are as follows:

- To identify positive characteristics of the employees.
- To develop awareness of each employee's uniqueness.
- To respect feelings of other employees.
- To attract talented employees to the organization.
- To train employees towards team-building skills.
- To create healthy ways of dealing with conflicts, emotions, and stress.

Title: Case Study Methodology

Date: 07-12-2018

Resource person: Dr. Jitendra Gowrabhathini,
Associate Professor,
KL Business School, KL University.

Objective of workshop: The objective of this workshop is to make both students and Faculty realise the need for Case studies which are a popular research method in business area. Case studies aim to analyse specific issues within the boundaries of a specific environment, situation or organization

Beneficiaries: Faculty and Students

Outcome of the event: This session created a great awareness on the importance of case study. case study is a research methodology that has commonly used in social sciences. Case studies are based on an in-depth investigation of a single individual, group or event to explore the causes of underlying principles. A case study is a descriptive and exploratory analysis of a person, group or event. A case study is a research method common in social science. It is based on an in-depth investigation of a single individual, group, or event. Case studies may be descriptive or explanatory Business case studies are usually summaries of real-life business scenarios or fictitious accounts of a business situation or dilemma. Business case studies can illustrate business theory and show the application of such theory.
