Title: Case study methodology

Date: 07-12-2018

Resource person: Dr.Jitendra Gowrabhathini,
Associate Professor,
KL Business School, KL University,

Objective of workshop: The objective of this workshop is to make both students and Faculty realise the need for Case studies which are a popular research method in business area. Case studies aim to analyse specific issues within the boundaries of a specific environment, situation or organization

Beneficiaries: Faculty and Students

Outcome of the event: This session created a great awareness on the importance of case study. case study is a research methodology that has commonly used in social sciences. Case studies are based on an in-depth investigation of a single individual, group or event to explore the causes of underlying principles. A case study is a descriptive and exploratory analysis of a person, group or event. A case study is a research method common in social science. It is based on an in-depth investigation of a single individual, group, or event. Case studies may be descriptive or explanatory Business case studies are usually summaries of real-life business scenarios or fictitious accounts of a business situation or dilemma. Business case studies can illustrate business theory and show the application of such theory.
