(e) Publicly commit itself to a zero tolerance policy towards sexual harassment;

or sexual assault at all levels;

(g) Create awareness about what constitutes sexual harassment including hostile environment harassment and quid pro quo harassment;

(h) include in its prospectus and display prominently at conspicuous places or Notice Boards the penalty and consequences of sexual harassment and make all sections of the institutional community aware of the information on the mechanism put in place for redressal of complaints pertaining to sexual harassment, contact details of members of Internal Complaints Committee, complaints procedure and so on. Wherever a Gender Sensitization Committee against Sexual Harassment (GSCASH) already exists it must be brought additionally in consonance with the composition mandated by the Act;

(i) inform employees and students of the recourse available to them if they are victims of sexual harassment;

(j) Organize regular orientation or training programmes for the members of the ICC or GSCASH to deal with complaints, steer the process of settlement or conciliation, etc., with sensitivity;

(k) Proactively move to curb all forms of harassment of employees and students whether it is from those in a dominant power or hierarchical relationship within TIs or owing to intimate partner violence or from peers or from elements outside of the geographical limits of the TI;

(m) Treat sexual harassment as misconduct under service rules and initiate action for misconduct if the perpetrator is an employee;

(n) Treat sexual harassment as a violation of the disciplinary rules (leading up to rustication and expulsion) if the perpetrator is a student;

(o) Ensure compliance with the provisions of these regulations, including appointment of ICC, within a period of sixty days from the date of publication of these regulations;

(p) Monitor the timely submission of reports by the ICC or GSCASH;

(q) Prepare an annual status report with details on the number of cases filed and their disposal and submit the same to the Council.

### 3.2 Supportive measures-

(1) the rules, regulations or any such other instrument by which ICC or GSCASH shall function have to be updated and revised from time-to-time, as court judgments and other laws and rules will continue to revise the legal framework within which the Act is to be implemented.

(2) The Executive Authority of the TIs must mandatorily extend full support to see that the recommendations of the ICC are implemented in a timely manner. All possible institutional resources must be given to the functioning of the ICC, including office and building infrastructure (computers, photocopiers, audio-video, equipment, etc.), staff (typists, counselling and legal services) as, well as a sufficient allocation of financial resources.

(3) Vulnerable groups are particularly prone to harassment and also find it more difficult to complain. Vulnerability can be socially compounded by region, class, caste, sexual orientation, minority identity and by being differently abled. Enabling committees must be sensitive to such vulnerabilities and special needs.

that the guidelines for ethics for Research Supervision are put in place.

(5) All TIs must conduct a regular and half yearly review of the efficacy and implementation of their anti-sexual harassment policy.

(6) Orientation courses conducted in TIs for administrators must have a module on gender sensitization and sexual harassment issues. Regular workshops are to be conducted for all sections of the TI community.

(7) Counselling services must be institutionalized in all TIs and must have well trained full-time counsellors.

(8) Many TIs having large campuses have a deficit in lighting and are experienced as unsafe places by the institutional community. Adequate lighting is a necessary aspect of infrastructure and maintenance.

(9) Adequate and well trained security including a good proportion or balance of women security staff is necessary. Security staff must receive gender sensitization training as a part of conditions of appointment.

(10) TIs must ensure reliable public transport, especially within large campuses between different sections of the TI, hostels, libraries, laboratories and main buildings, and especially those that do not have good access for day scholars. Lack of safety as well as harassment is exacerbated when employees and students cannot depend on safe public transport. Shuttle buses must be provided to enable employees and students to work late in libraries, laboratories and to attend programmes in the evenings.

(11) TIs must build requisite women's hostels, which is a priority area. For the growing population of young women wishing to access higher education, hostel accommodation is a necessity in both urban and rural areas and at all levels of higher education which provides a modicum of protection from harassment of all kinds,

(12) Concern for the safety of women students must not be cited to impose discriminatory rules for women in the hostels as compared to male students. Campus safety policies should not result in securitization, such as over monitoring or policing or curtailing the freedom of movement, especially for women employees and students.

(13) Adequate health facilities are equally mandatory for all TIs. In the case of women this must include gender sensitive doctors and nurses, as well as the services of a gynaecologist.

(14) The Women's Development Cells in colleges shall be revived and funded to be able to carry out the range of activities required for gender sensitization and remain autonomous of the functioning of anti sexual harassment committees and ICCs. At the same time they shall extend their activities to include gender sensitization programmes in consultation with ICCs and help to disseminate anti- sexual harassment policies on campuses on a regular basis. The 'cultural' space and the 'formal academic space' need to collaborate to render these workshops innovative, engaging and non-mechanical.

(15) Hostel Wardens, Provosts, Principals, Legal Officers and other functionaries must be brought within the domain of accountability through amendments in the rules or Ordinances where necessary.

4. **Grievance Redressal Mechanism-** (1) Every TI shall constitute an Internal Complaints Committee (ICC) with an inbuilt mechanism for gender sensitization against sexual harassment. The ICC shall have the following composition:-

- (a) A Presiding Officer who shall be a woman faculty member employed at a senior level (not below a Professor in case of a university, and not below an Associate Professor or Reader in case of a college) at the educational institution, nominated by the Executive Authority;
  - (b) Two faculty members and two non-teaching employees, preferably committed to the cause of women or who have had experience in social work or have legal knowledge, nominated by the Executive Authority;
  - (c) Three students (comprising of at least one girl student) of Pre-Final/Final year at Undergraduate/Diploma level Institute, as the case may be.
  - (d) One member from amongst non-government organizations or associations committed to the cause of women or a person familiar with the issues relating to sexual harassment, nominated by the Executive Authority.
- (2) At least one-half of the total members of the ICC shall be women.
- (3) Persons in senior positions such as Chairman, Secretary of the Society & Principal / Director etc. shall not be the members of ICCs in order to ensure autonomy of their functioning.
- 4) The term of office of the members of the ICC shall be for a period of three years. TIs may also employ a system whereby one-third of the members of the ICC may change every year.

5. **Responsibilities of Internal Complaints Committee (ICC) or GSCASH** - The Internal Complaints Committee shall:

- (a) Provide assistance if an employee or a student chooses to file a complaint with the police;
- (b) provide mechanisms of dispute redressal and dialogue to anticipate and address issues through just and fair conciliation without undermining complainant's rights, and minimize the need for purely punitive approaches that lead to further resentment, alienation or violence;
- (c) protect the safety of the complainant by not divulging the person's identity, and provide them mandatory relief by way of sanctioned leave or relaxation of attendance requirement or transfer to another department or supervisor as required during the pendency of the complaint, or also provide for the transfer of the offender;
- (d) Ensure that victims or witnesses are not victimised or discriminated against while dealing with complaints of sexual harassment; and
- (e) Ensure prohibition of retaliation or adverse action against a covered individual because the employee or the student is engaged in protected activity.

6. **The Process for making Complaint and conducting Inquiry** - The ICC shall comply with the procedure prescribed in the Act, for making a complaint and inquiring into the complaint in a time bound manner. The TI shall provide all necessary facilities to the ICC to conduct the inquiry expeditiously and with required privacy.

7. **Process of making Complaint** - (1) An aggrieved person is required to submit a written complaint along

three months from the date of the incident and in case of a series of incidents within a period of three months from the date of the last incident.

(2) Friends, relatives, colleagues, co-students, psychologist or any other associate of the victim may file the complaint in situations where the aggrieved person is unable to make a complaint on account of physical or mental incapacity or death.

**8. Process of conducting Inquiry -** (1) The ICC shall, upon receipt of the complaint, send one copy of the complaint to the respondent within a period of seven days of such receipt.

(2) Upon receipt of the copy of the complaint, the respondent shall file his or her reply to the complaint along with the list of documents, and names and addresses of witnesses within a period of ten days.

(3) The inquiry has to be completed within a period of ninety days from the receipt of the complaint. The inquiry report, with recommendations, if any, has to be submitted within ten days from the completion of the inquiry to the Executive Authority of the TI. Copy of the findings or recommendations shall also be served on both parties to the complaint.

(4) The Executive Authority of the TI shall act on the recommendations of the committee within a period of thirty days from the receipt of the inquiry report, unless an appeal against the findings is filed within that time by either party.

(5) An appeal against the findings or /recommendations of the ICC may be filed by either party before the Executive Authority of the TI within a period of thirty days from the date of the recommendations.

(6) If the Executive Authority of the TI decides not to act as per the recommendations of the ICC, then it shall record written reasons for the same to be conveyed to ICC and both the parties to the proceedings. If on the other hand it is decided to act as per the recommendations of the ICC, then a show cause notice, answerable within ten days, shall be served on the party against whom action is decided to be taken. The Executive Authority of the TI shall proceed only after considering the reply or hearing the aggrieved person.

(7) The aggrieved party may seek conciliation in order to settle the matter. No monetary settlements should be made as a basis of conciliation. The TI shall facilitate a conciliation process through ICC or GSCASH, as the case may be, once it is sought. The resolution of the conflict to the full satisfaction of the aggrieved party wherever possible, is preferred to purely punitive intervention.

(8) The identities of the aggrieved party or victim or the offender shall not be made public or kept in the public domain especially during the process of the inquiry.

**9. Interim Redressal-** The TI may,

(a) transfer the complainant or the respondent to another section or department to minimise the risks involved in contact or interaction, if such a recommendation is made by the ICC;

(b) grant leave to the aggrieved with full protection of status and benefits for a period up to three months;

(c) restrain the respondent from reporting on or evaluating the work or performance or tests or examinations of the complainant;

wherever necessary, if there is a definite threat, restrain their entry into the campus;

(e) take strict measures to provide a conducive environment of safety and protection to the complainant against retaliation and victimization as a consequence of making a complaint of sexual harassment.

**10. Punishment and compensation-** (1) anyone found guilty of sexual harassment shall be punished in accordance with the service rules of the TI, if the offender is an employee. Depending upon the severity of the offence, the punishments may include any one or more such as a written apology, warning, reprimand, censure, undergoing counselling or carrying out community service, withholding of promotion, withholding of pay rise or increments and terminating the respondent from service.

(2) Where the respondent is a student, depending upon the severity of the offence, the TI may,-

(c) expel and strike off name from the rolls of the institution, including denial of readmission, if the offence so warrants;

(d) Award reformatory punishments like mandatory counselling and, or, performance of community services.

(3) The aggrieved person is entitled to the payment of compensation. The TI shall issue direction for payment of the compensation recommended by the ICC and accepted by the Executive Authority, which shall be recovered from the offender. The compensation payable shall be determined on the basis of-

(a) Mental trauma, pain, suffering and distress caused to the aggrieved person;

(b) The loss of career opportunity due to the incident of sexual harassment;

(c) The medical expenses incurred by the victim for physical, psychiatric treatment;

(d) The income and status of the alleged perpetrator and victim; and

(e) The feasibility of such payment in lump sum or in installments.

**11. Action against frivolous complaint-** (1) To ensure that the provisions for the protection of employees and students from sexual harassment do not get misused, provisions against false or malicious complaints have to be made and publicized within all TIs. If the ICC or GSCASH concludes that the allegations made were false, malicious or the complaint was made knowing it to be untrue, or forged or misleading information has been provided during the inquiry, the complainant shall be liable to be punished as per the provisions of sub-regulations (1) of regulations 10, if the complainant happens to be an employee and as per sub-regulation (2) of that regulation, if the complainant happens to be a student.

**12. Consequences of non-compliance-** (1) The Council shall, in respect of any institution that will fully contravene or repeatedly fails to comply with the obligations and duties laid out for the prevention, prohibition and redressal of sexual harassment of employees and students, take one or more of the following actions after providing due notice: -

(f) recommending the affiliating university for withdrawal of affiliation, in case of a college;

(g) Taking such other action within its powers as it may deem fit and impose such other penalties as may be provided in the All India Council for Technical Education Act, 1987 for such duration of time till the institution complies with the provisions of these regulations.

(2) No action shall be taken by the Council under these regulations unless the Institution has been given an opportunity to explain its position and an opportunity of being heard has been provided to it.
