Hi Dear,

As we wait for you to begin your registration process for the Velocity program, we are delighted to share two important program updates that will enhance your learning experience.

First of all, Wipro will be sponsoring the training fee for your certification.

This means that once you register, you would not be required to make any payment — Wipro will be paying your fee to the training partners and your training would commence shortly afterwards.

Additionally, we are also providing you with a three-month internship opportunity to help you fast track your learning and complete your training and certification.

This going to be an unpaid internship which will start from 14th March 2022, While this internship is not mandatory in order to complete the Velocity program, it will enable you to complete your learning faster and more efficiently.

Those who are unable to join the internship program would continue the training as per the batch allocated to you by our training partner.

We're hoping these two changes to the program will help you get started on the right note and accelerate your learning.

Your onboarding at Wipro is tentatively planned for June 2022 (or earlier) upon the successful completion of your training and certification. The certifications will be awarded once you join Wipro Ltd.

Those who are unable to avail the internship option will be expected to optimize their time and complete their training so that we can have you onboard at the earliest.
