## Event Report

on

### One day Seminar on “Machine Learning for Science and Society”

Title : Machine Learning for Science and Society  
Speaker : Mr. B.Rajesh, Program Manager, Technical Hub  
Objective : To Provide knowledge on emerging areas using Machine Learning  
Venue : Ground Floor, Room No. 005, Seminar Hall, Ramanujan Bhavan  
Date : 17/08/2021  
Time : 10 A.M. to 1.00 P.M.  
No. of Students Enrolled : 102

The speaker, Mr. B. Rajesh, was introduced to the audience. He explained about the importance of machine learning for science and society along with its applications in an elaborate way.

#### **Outcomes:**

- Students can be able to apply machine learning to scientific research and in high stakes social contexts.
- Students can perform repairs on critical infrastructure, can predict severe weather and aviation turbulence, conduct tax audits, and detect privacy breaches in accessing healthcare data.
- Students can be able to use the learned concepts in developing projects that are useful to society.
- Students can develop the skills in building a career in software development technologies.

### One day Seminar on "Web Services: Problems and Future Directions"

Title : Web Services: Problems and Future Directions

Speaker : Mr. L. Sathish, Web Developer, Technical Hub

Objective : To understand the problems and scope in the future of web services

Venue : Ground Floor, Room No. 005, Seminar Hall, Ramanujan Bhavan

Date : 16/11/2021

Time : 10 A.M. to 1.00 P.M.

No. of Students Enrolled : 124

The speaker, Mr.L. Sathish, was introduced to the audience. He emphasized the problems and future directions of web services in an elaborate way. He addressed several key issues and the future scope of web technologies with the students very interactively.

#### **Outcomes:**

- Able to develop web-based applications that help society.
- Web services would be treated as first-class objects data that can be manipulated much like a database management system.
- Web services, based on existing Internet protocols and open standards, can provide a flexible solution to the problem of application integration.
- Able to overcome the current problems in Web services architectures by providing data security.
